Our machines offer **barista style coffee** combined with a **large selection of cold drinks and snacks.**

Crane BevMax Vending Machine

Crane's definitive BevMax is without a doubt one of the most popular drink machines we have in stock.

BevMax machines maximise impulse sales thanks to their glass front and full product display. They also run on a unique motorless vend mechanism, with all serviceable components accessible from the front, making the machine one of the easiest to maintain.

The BevMax machines are a trusted, robust drink vending solution.

The BevMax is available in two models: the BevMax 30 and BevMax 45.

Key Features

- Versatile trays handle most shapes and sizes of bottles and cans
- Ability to vend glass or PET bottles from any tray without damage
- Clear display of all products with glass frontage
- Full hermetically constructed refrigeration system
- All components serviceable from front of machine
- Accessible to wheelchair user

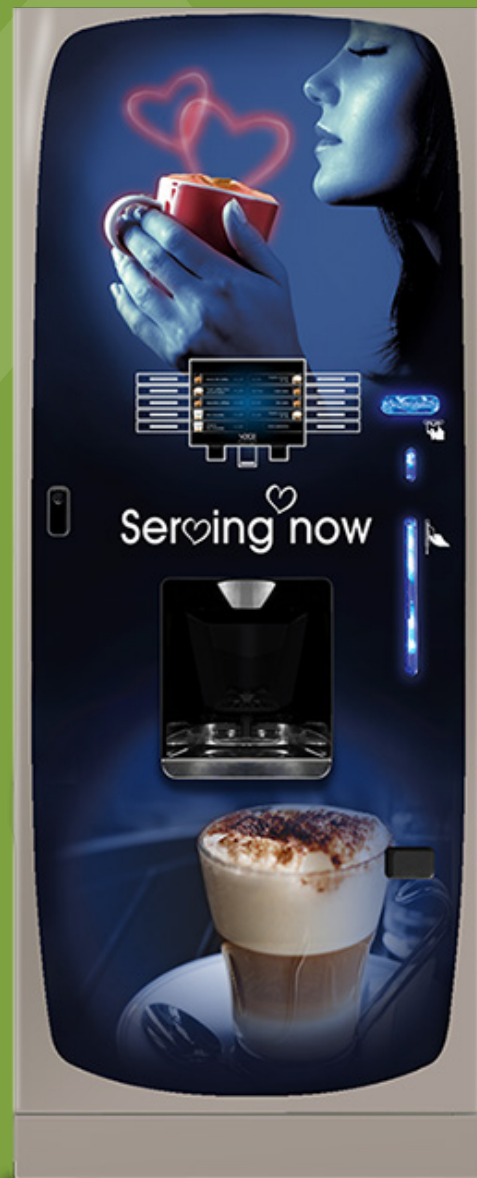

*Our machines offer **barista style coffee** combined with a **large selection of cold drinks and snacks.***

Voce Media Vending Machine

VOCE Media combines the coffee shop-quality of VOCE with the consumer engagement of a Media platform to transform the vending experience.

Simple to use ATM style interface and a coffee shop style menu offering one of the widest beverage choices in the market place. Speed and efficiency without losing quality the Voce Media hot drinks vending machine is available with instant, freshbrew tea, roast and bean to cup configurations options. The ATM style interface is familiar and simple to use with the clear large central display area allowing for media applications as well as one of the widest drinks selections on the market.

The Voce Media needn't cost the earth either. This hot drinks vending machine features programmable software to significantly reduce energy consumption. Power save mode reduces the energy consumption but keep the vending machine ready for the next vend. The Focus can also be matched with other Crane machines to create a total vending solution.

Key Features

- ATM style media interface displaying marketing information and drinks selections
- High quality Oltre brewer for consistently great tasting tea and coffee beverages
- Surevend™ guaranteed cup delivery system fitted as standard
- Energy saving software significantly reducing energy consumption
- Available with 7oz, 9oz or 12oz cups
- Height: 1830mm Depth: 790mm Width: 700mm Weight: 185Kg Capacity: 600 Cups

*Our machines offer **barista style coffee** combined with a **large selection of cold drinks and snacks.***

Crane Focus Snack Vending Machine

The Focus snack machine has been designed to meet the varying needs of today's busy vending environments.

It offers a wide range of chilled snacks and confectionery and the trays can be adjusted to account for larger products. It's dual snack spirals allow snacks and confectionery to be stocked on the same shelf, maximizing the available space.

The Focus can also be matched with other Crane machines to create a total vending solution.

Key Features

- SureVend™ guaranteed product delivery system
- Programmable time events and free vend modes
- Compatible with coin and cashless payment systems
- Operator friendly with easy cleaning, filling, and maintenance
- Internal audit system to record sales
- Innovative price roll system for easy price changes
